FUNSTON TOLD TO LEAVE CUBA

Will Not Be Left in Command of American Forces.

SECRETARY WM. TAFT EXPLAINS

Many Cubans, Organizers of the Moderate Party, Were Outspoken Against General Funston, Alleging He Deserted Them in Spanish War.

Havana, Oct. 12.—General Frederick Funston will not continue in command of the American forces in Cuba. Governor Taft announced that he and General Funston will leave Havana for the United States Saturday on the battleship Louisiana. With them will go Assistant Secretary of State Bacon and the affairs of Cuba will be left in the hands of Governor Magoon and General J. Franklin Bell.

In explaining this change of plans, Governor Taft said:

"General Funston was summoned on a hurry call from the Pacific coast because he was well acquainted with many of the insurgent chiefs here and it was thought he could aid us, as he did greatly in bringing the men in arms to an agreement. General Funston was put temporarily in command of the troops in Cuba merely as a convenience until General Bell should arrive. General Funston, Mr. Bacon and myself, with Mrs. Taft and Mrs. Bacon and our secretaries are returning to our permanent duties."

Many Cubans of the faction to which Mendez Capote and others who organized the moderate party belong, were outspoken against General Funston, alleging that he had deserted them in the war to throw off the yoke of Spain.

Governor Taft did not take cognizance of this bitterness, as he was familiar with the circumstances under which General Funston, at that time, returned to the United States. Funston was then ill, and he had the consent to return of General Garcia and other leaders, who appreciated the long service he had given their cause.

Several leaders of the revolution have arrived here from various parts of the island for the purpose, it is said, of attending a meeting at the home of General Castillo. They would not discuss the object of the gathering, but it is said that the rebel generals intend to make urgent requests of Secretary Taft for official positions under the provisional government. It is said that each of the generals has selected the position which he desires, and will make a demand for it on the ground that Mr. Taft is under obligations to them for their assistance in disarming the rebels.

It is considered significant that the rebels who served under General del Castillo have been instructed not to sell their horses and it is feared that del Castillo has a wild idea of enforcing his demands for a position under the provisional government.

Confidential agents of the late Cuban government Thursday reported to Governor Taft that the meeting of rebel leaders at the home of General Castillo Wednesday night was not for the sole purpose of bidding each other farewell, as the participants alleged. Castillo addressed his associates, urging that Governor Taft be called on to declare his attitude towards the men who were responsible for overturning the Palma government, and declared that the provisional government would have made slow progress but for the assistance of the rebels. Therefore, he argued, Mr. Taft should show his gratitude by ousting the moderates from office and substituting for them men who had fought for good government. In spite of the fact that he was the host, Castillo did not obtain support for his demands.

Generals Ferrara and Asbert made patriotic speeches, saying that they fought for their country and not for spoils. This sentiment was generally endorsed, and Castillo was voted down. Several speeches were then made applauding Governor Taft, president Roosevelt and the United States for their generous course towards Cuba.

able to make an accurate estimate of the conflicting reports regarding Wednesday night's meeting at the residence of General Castillo.

NEGROES FIGHT JIM CROW CARS.

Complaint Is Filed With the Commerce Commission.

Washington, Oct. 12.—Representative negroes of the south, on behalf of their race, have complained to the interstate commerce commission of the use by railroads of the south of "Jim Crow" cars for interstate passengers, and have requested the commission to investigate the subject, and on the development of facts to issue an order compelling the railroads not to discriminate against passengers on account of their color.

The petition is signed by Thomas Oliver and W. D. Johnson of Mississippi, and about a dozen other negroes. It says in part:

"Under present conditions, colored interstate passengers are denied equal privileges with white interstate passengers. Colored interstate passengers are compelled by the railways in the south to ride in what are commonly known as 'Jim Crow' cars, which are usually filthy and uncomfortable, and are denied the right to eat in railway dining cars and occupy berths in sleeping cars because of their color, all of which is a violation of the Hepburn railroad rate regulation law, which invests your honorable body with power equally to force equality between colored and white interstate passengers holding interstate tickets on the railways of the country."

The petitioners say they have no funds with which to employ counsel to argue their case.

ARRESTED FOR FIRING INTO JAIL

It Is Claimed He Wounded One of the Negro Prisoners There.

Macon, Ga., Oct. 12.—Dan Richardson is behind the bars at the police station on a serious charge. It is claimed by the police that he is the man who fired a pistol in the jail Saturday night, which wounded one of the negro prisoners there.

A charge of larceny is also booked against him, it being claimed that he took a pistol which did not belong to him from the armory of the Floyd rifles, and that it was that pistol with which he did the shooting.

Richardson states that he had been drinking and does not know how he came into possession of the pistol. He will be given a hearing before Recorder Nottingham, and the police officers claim that they have the strongest sort of evidence on him.

War Veteran Dies Suddenly.

Washington, Oct. 12.—Major J. H. Stine, president of the United States Historical society and historian of the Army of the Potomac, died suddenly at his home Wednesday night. Major Stine, who was about 65 years old, participated in the parade of the Spanish-American war veterans here on Tuesday, and it is believed that the exertion of the marching was responsible for his death. He was a clerk in the treasury department.

Rebels Will Surrender.

Washington, Oct. 12.—Cable advices received here from San Domingo state that an agreement has been reached between the government and the insurgent forces in the neighborhood of Monte Christo, whereby the insurgents will surrender to the government, and General Limardon, who conducted the campaign for President Caceres will become governor of Monte Christo.

Oil Trial For Tennessee.

Nashville, Tenn., Oct. 12.—Jackson, Tenn., is to be the seat of a trial of a suit against the Standard Oil company for a violation of freight rates and discriminations favorable to it which will involve all the southeastern states and which will in importance and sweep be no less famous than the Chicago investigation. The date of the suit will be announced later.

115 Horses Burned to Death.

Nashville, Tenn., Oct. 12.—The stock yards at Columbia, Tenn., together with 115 head of horses and mules, 17,000 bushels of wheat, $5,000 worth of oats, $3,000 worth of hay and a quantity of machinery were destroyed by fire Wednesday night.

STOLE A MILLION; MADE FIRM BANKRUPT

Ceballos & Company Fail With Heavy Liabilities.

AGENT FLED WITH $1,000,000

Defalcation Forced Company to Suspend—Defaulting Agent Left On October 2, and Since Then Nothing Has Been Heard of Him.

New York, Oct. 12.—The assignment of J. M. Ceballos & Co., bankers and merchants, with liabilities between $3,000,000 and $4,000,000, was announced Wednesday. The statement declares that the failure was due to the defalcation and absconding of Manuel Silveira of Silveira & Co., Havana agents of the New York company.

Silveira's defalcation is alleged to amount to $1,000,000. He sailed from Havana Oct. 2, ostensibly to consult here with the members of J. M. Cabellos & Co., but has not reached this city.

Counsel for the assignee said that Silveira has left on his own steamer, the Carmelina, for parts unknown, accompanied by his wife and children, and that every effort was being made to locate him.

The members of the firm of J. N. Ceballos & Co. are J. M. Ceballos, John S. Fiske and Anderson C. Wilson.

The assignee is William V. Rowe an attorney. Mr. Rowe said that the assets of the firm are of a substantial character, but from a hasty examination it was manifest that they would require careful investigating. It was stated that the assets will be sufficient to cover the losses and that the firm may be enabled to resume.

J. M. Ceballos & Co. was established about 50 years ago and has large interests in Cuba, chiefly in the development of railroads and sugar plantations. It operates a line of steamers between New York and Spanish ports and has connections in Spain, European centers and Spanish-American cities.

William Nelson Chomwell, counsel for the assignee, stated:

"Messrs. Ceballos & Co., having no premonition of this conduct of their agent and confronted with this large loss and the deprivation of their current resources, I have, in this emergency, deemed it just to all having relations with them, that they should make a general assignment without preference. It is impracticable at the moment to make an intelligent statement of their assets and liabilities. In a general way the liabilities are between $3,000,000 and $4,000,000. T accountants are at work and will be able within a few days to make a fuller statement."

Manuel Silveira, the defaulting Havana agent for the firm of J. M. Ceballos & Co., is not on board the steamer Carmelina, on which he left Havana Oct. 2, but on another steamer which he boarded at sea two days after leaving the Cuban capital, according to information given out here Thursday.

It is said that the present whereabouts of the Carmelina is known, and that the destination of the other steamer to which Silveira and his family were transferred are also known.

The charge of defalcation with more than $1,000,000 which has been made against Silveira was made, according to Attorneys Sullivan and Cromwell, who made the announcement after the news of the Carmelina and the other steamer had been received in this city.

General Strike Is On.

Lodz, Russian Poland, Oct. 12.—During the night the bodies of five terrorists, who were hanged here on Wednesday and buried, exhumed by sympathizers and then re-interred by command of the Cossack officers, were re-exhumed by unknown persons. The authorities then buried them for the third time. Another terrorist, condemned to death by drumhead commission, was executed Thursday morning. The general strike is in full swing

LOVEJOY LOSES BY FIRE.

Nearly All Business Houses on East Side Destroyed.

Jonesboro, Ga., Oct. 12.—As a result of a fire that started at 11 o'clock Wednesday morning five stores, a physician's office, 75 bales of cotton, two cotton seed houses and a blacksmith shop were totally destroyed at Lovejoy, a station 7 miles south of Jonesboro, on the Central of Georgia railroad.

The fire originated in the stove flue of G. H. Conkle's store and quickly spread to the store of Stanfield Bros. The fire was soon stopped in the store where it originated, with a loss of about $300, but before the fire had been extinguished in Conkle's store it had gained such headway in Stanfield Bro.'s store that it was impossible to stop it. The flames quickly spread to Dr. J. R. Wallas' office, and then the rest of the business part of the town on the east side of the railroad was doomed—all the other stores on that side being wooden buildings, which were easy prey for the flames in the high wind that was blowing.

The losses are: Stanfield Bros., $2,500; A. V. McVicker, $5,000; McVicker Bros., $2,000; A. D. Martin, $750; Fields & Edwards, $7,500.

The merchants named lost their entire stocks of goods, and the physician his office furniture, surgical instruments, etc.

Seventy-five bales of cotton, the property of various parties, which were lying on a platform in the open, were burned, at a loss of $3,000.

The buildings, owned by Jim Stanfield, A. V. McVicker and S. D. Crawford, were valued at about $7,500. A lot of cotton seed and two seed houses belonging to oil companies were burned. The merchandise and buildings were only partially covered by insurance.

The total loss is estimated at $30,000. The entire business section of the town suffered losses except two firms, I. G. Dorsey and J. J. Fullerton.

Johnson Will Get Life Term.

Moultrie, Ga., Oct. 12.—After remaining out 22 hours, the jury in the Jim Johnson murder case returned a verdict. Johnson was found guilty and recommended to mercy. Johnson's wife and mother were by him when the verdict was read in court. The ladies wept sore, but Johnson was very little moved. These two faithful friends returned to the jail with him and insisted on entering his cell to comfort him, although the condemned man insisted on doing the comforting himself, and assured his young wife that he would "come out of it yet."

Baldwin Racing Association.

Los Angeles, Cal., Oct. 12.—The Baldwin Racing association, with a capitalization of $500,000, of which $300,000 has been subscribed, has filed articles of incorporation and proposes to establish by Sept. 1, 1907, a large and modern race course and racing club at Arcadia, 12 miles from Los Angeles. The officers of the corporation are: President, E. J. (Lucky) Baldwin; vice president, H. J. Wolcott; secretary-treasurer, E. S. Albright; general manager, W. C. Creveling.

$4,000 Loss at Valdosta, Ga.

Valdosta, Ga., Oct. 12.—Eleven small negro cottages and a store owned by a negro man were burned here Wednesday by a fire which started shortly before noon. The burned houses were located on the western border of town and the fire department was handicapped by small water mains. A strong wind quickly carried the flames from one house to another. The loss is about $4,000.

Witness Killed on Courthouse Steps.

Groveton, Tex., Oct. 12.—F. R. Nyer, a private detective, was shot as he stood on the steps of the court house after testifying against certain Trinity county, Texas, people. He died Wednesday morning. He had been brought here by the sheriff as an attached witness.

SEVENTH DAY ADVENTISTS.

They Continue to Hold Services in North Gainesville Chapel.

The members of the Seventh Day Adventist congregation are continuing their services at the chapel in North Gainesville, and the meetings are being fairly well attended.

The most central figure at the meetings is John Mitchell, a young man not yet eighteen years of age, who has been converted to the faith. Mr. Mitchell calls Lakeland his home, where he has a widowed mother. He has just graduated from Graceville College, Graceville, Tenn., and is a young man of exceptional qualities, being a fine speaker and a fluent and successful worker. He has succeeded in interesting quite a number in this section in his religious work, which is best evidenced by the crowd which has filled the little chapel each evening.

Possessed of good language, well arranged, the young Mitchell lad has got people to thinking, and the Seventh Day Adventists hope he will come again.

The last service during the present revival will be held today, beginning at 10:30 a. m. It will be a Bible reading, and those who attend are requested to bring their Bibles with them.

LEVY COUNTY SENSATION.

Man Said to Be Found Dead, But No Authentication of Rumor.

The Sun, through the courtesy of a friend who had East Florida telephone connection, received an inkling that a white man had been found dead in the woods near Bronson, or in the immediate vicinity of that town, on Wednesday afternoon.

The Sun has exerted every effort through the East Florida Telephone Company to secure some party at Bronson, but it seems that all parties telephoned who had instruments in their office have been absent, hence it has been impossible to secure definite information. The Levy Times-Democrat was issued on Thursday, however, and no mention is made, hence the rumor must have been mythical.

High Springs Improvements.

Captain W. G. Shehee, the merchant and broker of High Springs who was in the city Wednesday, speaks in the highest terms of his town and the improvements which are being carried on there.

Captain Shehee states that the latest improvement in the business section of High Springs is the addition of another story to the store owned and occupied by R. J. Futch and A. J. Moore. This building is located in the best business section of the town, and its location demands a fine trade.

When completed the firm will increase its line of furniture, etc., in order that the good people of High Springs may see the goods properly displayed.

There are many other improvements going on at High Springs, among which are a number of cottages and residences.

MEETING COTTON GROWERS.

Regular Meeting of Association Held in Alachua on Tuesday.

The Alachua Cotton Growers' Association held their regular meeting Wednesday in the Williams building, Alachua, President J. S. Dupuis in the chair.

A report of the present condition of the crop was asked for and every member present responded, showing a shortage of 40 per cent compared with last year's crop. The meeting was attended by the most successful farmers of the Association, and their crop would of course show a greater percentage than the average Alachua cotton growers.

A report of the recent meeting at Valdosta, Ga., was presented by J. R. Williams and the proceedings of that meeting were heartily endorsed by the Association, and therefore the members are determined to hold their cotton for the prices named at Valdosta, 21 to 25 cents.

J. R. Williams made a motion that the State Association have a called meeting at Lake City, Fla., between November 1st to 10th. This motion was adopted and it was decided that Mr. Harvey Jordan, president of the State Association, be requested to attend.

The Association adjourned to meet on October 20th at 11 a. m. in the Williams building, in Alachua. State Secretary F. G. Schell will address the meeting.

Friday's Fire.

An alarm of fire was turned in from Box 28 Friday morning at 9:30 o'clock, which summoned the department to the home owned and occupied by Louis Joseph, corner West Church and Seventh streets. The house, which was only a small affair, was well gone before the alarm was turned in, hence it was impossible to save it, and the building was virtually destroyed before the department could arrive upon the scene. Most of the furniture, etc., was saved.

Snow Storm at Buffalo.

Buffalo, N. Y., Oct. 12.—Snow began falling here Wednesday afternoon and continued for 16 hours. Great damage was done in this city to shade trees. Reports from surrounding towns are to the same effect. Fruit trees were also much damaged. Joseph Kerber, a machinist, was killed and an unknown man was shocked to death by coming in contact with live wires which had been broken by the wet snow.

Both of Them Were Captured.

Guntersville, Ala., Oct. 12.—James M. Thomason, a prominent farmer, was mortally wounded by a young man named Hornsby, who was residing at the home of Thomason's son. In a family quarrel, the elder Thomason was knocked down by his daughter-in-law, who called on Hornsby to kill her husband's father. Hornsby fired twice. The woman and man immediately fled together, but were overtaken by a posse of citizens and turned over to the sheriff.

Negro Fair to Be Called Off.

Macon, Ga., Oct. 12.—Owing to the strained relations between the races in every section of Georgia, the negro fair which is to be held in Macon next month may be called off. At the meeting of the city council a resolution was introduced cancelling the permission granted the negroes to hold a fair. Before the resolution was passed, however, it was decided to leave the matter to Mayor Smith, who will determine on the best course to pursue.

CURIOUS DESIGNS.

Odd Results May Be Produced by Dropping Oil on Water.

A curious experiment may be made, the result of which will produce a strange natural design, and the attempt may be carried on with almost endless variety in the result. The only things needed are a deep dish of water and some oil. Any kind of oil will do, but better results are obtained with a variety.

Fill a deep dish with pure water and let it stand until the water is perfectly still, then let fall into it a drop of pure sperm oil. The drop will spread out, forming a film circular in shape, but very ragged at the edges. If you watch the film you will soon perceive that the center begins to break up, forming ovals and circles, and the combinations of these form endless designs which keep on forming and breaking up from one to another for fully half an hour, making a veritable kaleidoscope.

You will see some designs that you may wish to preserve, and if that be so take a piece of glazed paper and place it gently over the surface of the water when the film is in the desired design. The oil will stick to the paper, and when you remove it from the water, as gently as you placed it there, run an inked roller over it or place the design on an inked plate. The ink will cover the paper except where the oil has touched it, and when your process is finished your design of oil will stand out white against a black background.

This same experiment made with castor oil will give a similar result, except that the designs will be smaller, and every kind of oil will give a different design. Indeed, no two drops of the same oil will produce the same design, so that you may preserve an endless variety in your collection.

Land Crabs.

Crabs are generally supposed to live in the ocean, but there is one species that lives on the land. It is found on the island of Jamaica, in the West Indies. It burrows in the sand sometimes two or three miles from the sea. It has two long claws. In attacking an enemy it binds it with one claw, which is then thrown off, and then continues the fight with the free claw. The crabs stay in the ground during the day and hunt for their food at night. They visit the ocean once a year to lay their eggs. They travel by night, when they are caught in great numbers.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

"At 10:15 a. m. I ventured into the garret, just in time to look out and see our wharf and wharf house settle, and begin to drift towards shore. You know that was a very serious sight for me.

"Now, that most of the damage is done, the storm is beginning to abate a little. The tide, however, is still rising, and I would not be surprised to see the steamship wharves go, as they are now in a rather shaky condition.

"At 11:45 a. m., the most of our wharf and lumber took a head for middle of the bay, after it started towards shore, and I believe is now gone for good.

"The old warehouse on the big pier has gone to pieces, and the new steamer moored there is half-way out in the bay with her smokestack gone. We of course do not know what other damage has been done to this vessel.

"Two of our neighbors have just been in to get something warm, as their kitchens, with all utensils, have been blown away. They and their families look badly frightened.

"No steamer left for Mobile this morning, as none were able to secure dock facilities. The storm is abating, however, and we expect to go to town as soon as possible and ascertain the damage."

Walter Hart Was Shot.

Macon, Ga., Oct. 11.—Walter Hart, brother of Alderman Jesse Hart, of this city, was shot by some one in the mob in front of Bibb county jail, and he is at his home suffering from a badly lacerated nose where the shot struck him. He narrowly escaped a shot from a second story window fired by some unknown person.

$10,000 Worth of Diamonds Stolen.

New York, Oct. 11.—Diamonds and jewelry worth $10,000 were stolen by a thief representing himself to be a telephone inspector in the home of a wealthy resident of the Bronx. In the region where the robbery occurred are the Ogden, Clarke, Edson, Camp and other fine estates.

AN ARCTIC CREVASSE.

Narrow Escape From Death In Its Fathomless Cavern.

Anthony Fiala, in his records of "Two Years In the Arctic" in McClure's Magazine, tells of his rescue from a deep crevasse on Hooker island. He was crossing an ice cap when the snow gave way beneath him. He began a frightful descent and then lost consciousness.

On recovering consciousness, he writes, I found myself wedged between two curves in the walls of the crevasse, the convex surfaces of which narrowed sufficiently to hold me between the breast and back. My left arm was bent over my breast and had prevented me from falling through the neck of the funnel. Beneath was a great cavern in which I could move my legs without finding the walls. Had I stepped three feet farther to the right I should have dropped in depths unfathomable.

The darkness was intense, but far above me shone a faint halo of blue with rays of light that came part way along a face of black, glassy ice. This told me where the men were. They asked how deep I had fallen. I shouted that I was about 150 feet down, for so it seemed to me. Just then I heard an awful sound in the crevasse. It appeared to come from below. My first thought was that a pack of dogs had fallen in with me. Soon the noise turned into articulate speech, and I learned that Steward Spencer, who had tried to save me, had fallen in too.

At last I saw above me the end of a rope, which gradually neared. My right arm was free, and at last the precious line was in my hand. I painfully made a bowline in the end of the rope, the fingers of my left hand being fortunately free. Slipping the noose over my right foot, I called to those above to haul away. I called to them to move the rope to the right and then to lower me, and after considerable difficulty in the dense darkness I discovered the steward, but could not rescue him on account of a projection of ice that interfered. I told him it would be best for the men to haul me up and then send the rope down again for him, to which he agreed. I was drawn to the surface just in time. I fainted on reaching the top. The steward was hauled up next. No bones were broken, but a cut on the steward's face required stitching.

On measuring the rope Seaman Duffy found we had fallen to the depth of seventy feet into the crevasse, a providential escape, for if we had fallen a short distance farther to the north, where the crevasse widened, we should have descended beyond the reach of help.

The Austrian National Hymn.

The Austrian national anthem is one of the most beautiful of Haydn's melodies and of national hymns. The words of the "Emperor's Hymn" were written by the Jesuit priest L. L. Haschka and were set to music by Haydn. On Jan. 28, 1797, Count von Saurau, governor of Vienna, issued a decree that "Gott erhalte Franz den Kaiser" should be the Austrian national hymn, and on Feb. 12 it was by order sung in all the theaters of Vienna. In England it is familiar as the hymn tune "Austria." It is often sung to Newton's lines, "Glorious things of thee are spoken," and sometimes also to Kempthorne's "Praise the Lord, ye heavens, adore him."

Haydn's affection for this beautiful melody is well known. He afterward employed it for the variations in the "Kaiserquartet," op. 76, No. 3, and when he was near death and too weak to stand he was carried across the room to the clavier and solemnly played the tune three times, according to Herr Pohl, as his farewell to art. William Gardiner, the Leicestershire stocking maker and musical amateur, sent Haydn six pairs of stockings woven with the air of "Gott erhalte" and other melodies.

Skeptical.

There was elected to the city council of Chicago once a politician of local note by reason of his frank and absolute cynicism, frequently expressed, with reference to reform in politics. For reformers as a class the cynical Chicagoan had only a contemptuous but good natured jest. It is said that on the occasion of the retirement of a federal officeholder, an Illinois man who had long fed at the public crib, some one had observed to the councilman that the officeholder in question was reported to have resigned for the reason that he had tired of politics and of office. "After all," said the friend, "Blank's a pretty fine sort. Great church member. He says that he will devote the remainder of his life to doing good."

"That so?" lazily asked the councilman. "What's this fellow Good?"

Child Plays With Dynamite.

Covington, Ga., Oct. 12.—While sitting before the fire at the home of a neighbor, Mrs. A. S. Hopkins was seriously and perhaps fatally wounded by the explosion of a dynamite cartridge thrown into the grate by her little son. The cartridge had been carelessly left in the yard of the Hopkins home by some workmen engaged in blasting the well, and was picked up by the little fellow and carried in his pocket as a toy. The shell, which struck Mrs. Hopkins in the bowels, has not yet been located by the physicians. Mrs. Hopkins is the wife of Dr. A. S. Hopkins, a prominent dentist of this city.

There is a structure which every pupil at school is building, young and old, rich and poor, each one for himself. It is called "character," and every act of your lives is a stone for this structure. If day by day you are careful to build your lives with pure, upright deeds, at the end you will stand a fair temple, honerd by God and man. But as one leak will sink a ship, and one flaw break a chain, so one mean, dishonorable act or word will forever leave its impress and work its influence on your character. Then let the several deeds unite to form a day and one by one the days grow into noble years, and the years as they slowly pass will raise at last a beautiful edifice, enduring forever to your praise, and you will cherish with the utmost tenderness the memories of your school life. The old school house, the familiar walks about the place, the desk upon which you wrote your name all indelibly stored away in memory never to be forgotten.

The people of Live Oak are happy over the fact that they are to have a new union depot. The Democrat says: "At last, thank goodness, that union depot for Live Oak is assured, through the harmonious action of our Board of Trade, the Railroad Commission and the roads entering this city. It is a "go" this time sure, and within ninety days, if the architectural plans are approved by the Board of Trade, work will be commenced on an up-to-date depot to cost not more than $15,000 That sum of money will give us a handsome structure of brick and stone, and the roads will, of course, see to it that it presents the best possible appearance and has all modern conveniences."

Judge Seaman of the United States circuit court, sitting in Milwaukee, has virtually decided that a combination of patents may create a monopoly in violation of the provisions of the anti-trust law and even defeat the purpose of the patent law itself. The case was decided against an Indiana corporation, owning some 200 patents covering what is known as a "wind stacker," and a Racine manufacturer of threshing machines infringed the patents, claiming that the plaintiff corporation was a monopoly and against public policy. If this decision is sustained the consequences will be far reaching and will overthrow many monopolies covered by patents.

The quantity of coal used by some of the big steamships is startling to say the least of it. The new turbine liner, Luesicania, has an indicated horse power of 65,000, which means a consumption of 435 tons of steam per hour, which it will require 50 tons of coal to make—nearly a ton a minute. This means more than 1,200 tons of coal a day, or if she can cross the Atlantic in five days she will consume in the trip over 6,000 tons of coal.

The "parcels post" dispute is being brought to the front again by the Merchants' League of America, which says the adoption of the plan would mean "calamity to thousands of communities." If the express companies were made to carry parcels at reasonable rates there would be no need for the government to go into the business, but those companies won't do it.

When the muck rakes are beaten into pruning hooks and other agricultural tools we may expect the crop of muck to grow larger. The ardent use of the muck rake is necessary to keep the political muck heap in anything like a sweet and wholesome condition.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The Live Oak Democrat refers to an important problem, that of regulating the tough white kid, as follows: "The problem of the tough kid, the tough white kid here in the South in every community, large and small, is also on hand to vex and harass us, and if not managed with firmness and decision, it is going to give us trouble hardly less than the race problem itself. The tough kid is the hoodlum in the tadpole stage of his development, and the hoodlum is the apprentice in crime who will make his appearance later on as the pistol-toting ruffian, murderer and all-round criminal. The tough kid should be handled without gloves by the law if his parents refuse to perform that office for him."

There are mighty few young people who go into marriage with any real idea of what it means. They get their notion of it from among the clouds where they lived while they were engaged, and naturally about all they find up there is wind and moonshine, or from novels which always end before the real trouble begins, or, they keep on, leave out the chapters that tell how the husband finds the rent and the wife the hired girl. But if there's one thing in the world about which its possible to get all the facts, its matrimony. Part of them are right in the house where you were born, and the neighbors have the rest.

As it is with right and wrong, good and evil, so it is with failure and success. Perseverance is the chief ingredient of the compound that brings success. There may be other elements required—and usually there are—but without this one the mixture is ineffectual. Talent, intellect—genius itself—may all combine for a certain end, but if the force of persistent industry is not behind them, they will lag upon the road and never reach the goal.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Section 35. The Legislature may provide for the assessment of benefits derived by lands by reason of such drainage, and the collection thereof; the proceeds therefrom shall be paid to the board of drainage commissioners to be used by them for such drainage purposes.

Approved May 27, 1905.

ARTICLE XXIX.

That Section nine (9) of Article five (5) of the Constitution of the State of Florida be and the same is hereby amended so as to read as follows, viz:

"Section 9. The salary of each Justice of the Supreme Court shall be four thousand ($4,000.00) dollars a year. The salary of each Circuit Judge shall be three thousand five hundred ($3,500.00) dollars a year."

That the foregoing amendment to Section 9 of Article V of the Constitution is hereby agreed to and the same shall be submitted to the electors of the State for approval or rejection at the next general election of representatives as required by Section 1, Article XVII of the Constitution.

Approved May 31st, 1905.

ARTICLE XXX.

That the following amendment to Article V of the Constitution of the State of Florida, relative to the Judiciary Department to be numbered section 39 of said Article V, be and the same is hereby agreed to and shall be submitted to the electors of the State at the general election to be held on the first Tuesday after the first Monday in November, A. D., 1906, for ratification or rejection, to-wit:

Section 39. That annual salary of the Judge of each of the Criminal Courts of Record now, or hereafter to be, established shall be paid quarterly by the county where such court is established, and shall be as follows: In counties of less than fifteen thousand population, one thousand dollars; in counties of from fifteen thousand population, one thousand dollars; in counties of from fifteen thousand to twenty-five thousand population, fifteen hundred dollars; in counties of from twenty-five thousand to thirty-five thousand population, two thousand dollars; and in counties of more than thirty-five thousand population, twenty-five hundred dollars, hereby repealing any and all parts of the said Constitution in conflict herewith.

Approved June 6, 1905.

ARTICLE XXXI.

That the following amendments to Article V of the Constitution of the State of Florida, relative to the Judiciary Department, to be numbered Sections 40, 41, 42, 43, 44, 45, 46, and 47, of said Article V, be and the same is hereby agreed to and shall be submitted to the electors of the State at the general election to be held on the first Tuesday after the first Monday in November, A. D., 1906, for ratification or rejection, to-wit:

Section 40. There shall be established in the county of Escambia, whenever the voters of said county shall so determine by a majority of the votes cast, on the question at any general election, a court of record and there shall be a judge of said court who shall be appointed by the Governor and confirmed by the Senate, who shall hold his office for six years and whose salary shall be two thousand, five hundred dollars a year, payable quarterly by the county of Escambia. The criminal court of record now established in Escambia county shall, upon the adoption of these amendments, become and be the court of record as herein provided and all officers of such criminal court of record shall be officers of such court of record and discharge the duties and receive the emoluments of such until the expiration of their present term of office.

Section 41. The said court and Judge shall have exclusive original jurisdiction of all criminal cases, not capital, which shall arise in Escambia county, and shall have in Escambia county, concurrent with the Circuit Court and the Circuit Judge of said county, all other cases and matters as the circuit court and circuit judge of said county and the same power to issue writs of mandamus, injunction, quo warranto, certiorari, prohibition, habeas corpus and all writs proper necessary to the complete exercise of their jurisdiction as the circuit court and circuit judge of said county, except the power and authority to summon and empanel a grand jury.

Section 42. There shall be six terms of said court in each year.

Section 43. There shall be for said court a prosecuting attorney who shall be appointed by the Governor and confirmed by the Senate and who shall hold his office for four years. His compensation shall be fixed by law.

Section 44. All offenses triable in said court shall be prosecuted upon information under oath to be filed by the prosecuting attorney, but the grand jury of the circuit court for said county may indict for any offence triable in the court of record. Upon the finding of such indictment the circuit judge shall commit or bail the accused for trial in the court of record, which trial shall be upon information.

Section 45. The clerk of said court shall be elected by the electors of Escambia county and shall hold office for four years and his compensation shall be fixed by law. The sheriff of Escambia county shall be the executive officer of said court, and his duties and fees shall be fixed by law.

Section 46. The same rule of procedure and practice which obtain in the circuit court of the county shall obtain in the court of record, and all laws relative to criminal courts of record, except as otherwise provided herein, shall apply to and control the court of record. Change of venue may be had from the court of record to the circuit court of another county for the same causes, and under the laws providing for changing the venue from circuit court of one county to the circuit court of another county. The Governor may, in his discretion, order the circuit judge of Escambia county or of any other county to hold one or more terms or parts of terms of the court of record. Any civil cause in the court of record may be tried before a referee, or in case of the disqualification of the judge of the court of record, may be tried by a judge ad litem, or may be transferred to the circuit court of Escambia county or of ony other county, in the same way and according to the same provisisons as govern such proceedings in the circuit court of Escambia county.

Section 47. The Supreme Court of the State shall have appellate jurisdiction in all cases at law and in equity originating in the court of record, and in cases of conviction of felony in the court of record. The circuit court of Escambia county shall have final appellate jurisdiction of all misdemeanors tried in the court of record. All appeals or writs of error prosecuted from the court of record, whether to the Supreme Court or Circuit Court, shall be prosecuted in the same way and according to the same rules as govern such proceedings from the Circuit Court to the Supreme Court.

Approved June 6, 1905.

ARTICLE XXXII.

That the following amendment to Article XVII of the Constitution of the State of Florida be, and the same is hereby agreed to and shall be submitted to the electors of the State at the general election in 1906 for ratification or rejection:

Section 1. Either branch of the Legislature, at a regular session thereof, may propose amendments to this Constitution; and if the same be agreed to by three-fifths of all the members elected to each house, such proposed amendments shall be entered upon their respective Journals with the yeas and nays and shall be published in one newspaper in each county where a newspaper is published, for one month immediately preceding the next general election of Representatives, at which election the same shall be submitted to the electors of the State, for approval or rejection. If a majority of the electors voting upon the amendments at such election shall adopt the amendments the same shall become a part of the Constitution. The proposed amendments shall be so submitted as to enable the electors to vote on each amendment separately. All amendments adopted at the election at which this is submitted or heretofore adopted by the electors are hereby declared a part of the Constitution from the date of the adoption of the same.

Approved June 6, 1905.

The votes cast in compliance with said proposed amendments, and the canvass, declarations and returns thereof, shall be subjected to the same regulations and restrictions as are provided by law for general elections in the State of Florida.

In testimony whereof, I have hereunto set my hand and affixed the great seal of the State of Florida, at Tallahassee, the capital, this first day of August, A. D., 1906.

(L. S.) H. Clay Crawford, Secretary of State.

To L. W. Fennell, Sheriff of Alachua county.

STATEMENT BY CLEVELAND

On the Present Political Campaign In New York State.

New York, Oct. 12.—The World publishes a statement by Grover Cleveland on the New York political campaign, which, it states, was written by the ex-president at his home in Princeton. The statement follows:

"It is difficult for me to overcome my reluctance to expressing my views of the present political situation in the state of New York, and yet I can never lose the interest in her political welfare which has grown out of my long residence there and my active participation in her political movements.

"I confess I was exceedingly surprised by the outcome of the recent Democratic convention. Though I was not near enough to be in touch with the incidents leading up to this result, being absent on my vacation and devoting little attention to political occurrences, my estimate of the conservative good judgment of the Democracy of the state and my conception of Democratic principles and purposes were such that I was profoundly startled by the selection made of a candidate to represent them in the pending canvass.

"Of course, every voter of the state must settle with his own conscience in determining his action in this emergency, but I cannot but regard the Democratic situation presented to my old associates in New York as an afflictive one."

A Most Worthy Article.

When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all pulmonary diseases. One of the best known merchants in Mobile, Ala., says: "For five years my family has not been troubled with the winter coughs. We owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells." Sold by W. M. Johnson.

Mrs. Davis' Condition Serious.

New York, Oct. 12.—The condition of Mrs. Jefferson Davis, widow of the president of the Confederacy, who has been ill at the Hotel Majestic for several days, is now regarded as serious. Mrs. Davis was stricken several days ago with a severe cold. There was no fear for the outcome at first, but the illness did not yield to treatment.

Julius Caesar

Was a man of nerve, but sickness left its mark and he became aged before his time. Sickness is often caused by a torpid liver. Herbine will regulate your liver and give you health. Mrs. Carrie Austin, Hollon, Kansas, writes: "I consider Herbine the best medicine I ever heard of. I am never without it." Sold by W. M. Johnson.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

AN ANCIENT PYRAMID.

Story of "the Tomb of the Christian" In Algeria.

The tomb of the Christian in Algeria is a pyramid on the summit of a hill more than 700 feet high, at the edge of the sea. It dates back to before the time of St. Paul, having been built by order of Juba II., the king of Mauretania, as a burying place for himself and his wife, Cleopatra, the daughter of Cleopatra and Mark Antony. The only daughter of Juba and his wife was Drusilla, who married Festus, the governor of Judaea in the time of St. Paul. The tomb can be entered by a low doorway beneath one of the four false doors. These have moldings on them of a cruciform shape and may account for the title, "The Tomb of the Christian." The passage within the pyramid winds round and eventually leads to two chambers shut off from it by folding doors, which can be moved up and down by levers. The tomb must have been rifled of all it contained centuries ago, though some think that by excavating in a downward direction it might still be possible to discover the burying place of the king and queen, supposing the two chambers, like the false doors outside, to be a blind. Doubtless the younger Cleopatra had brought the idea of making a royal mausoleum in the shape of a pyramid from Egypt. Portions of a marble statue of Egyptian design were found at Cherchel, suggesting that an Egyptian colony may once have existed there. There are two other similar monuments in Algeria, in the provinces of Oran and Constantine respectively, the latter being considerably older than the tomb of the Christian, which, however, is the only one referred to in ancient writings.—Autocar.

The History of Tacitus.

The entire history of Tacitus, as we have the work, was regained from a single copy found in the fifteenth century in a monastery of Westphalia. That we should owe the works of this author to one copy is a remarkable circumstance, for the Emperor Tacitus, who claimed to be a descendant of the historian, had copies of the history placed in every library of the empire and each year had ten copies transcribed for presentation to scholars. All it seems, perished, save the Westphalian copy.

Forget—baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

SHOEING HORSES.

Why This Process, Which Is Very Ancient, Is Necessary.

As soon as the horn of the hoof begins to be worn away faster than it is renewed by natural growth, and that is as soon as the horse is obliged to do regular work upon ground which is not itself in a state of nature or to undergo more than a voluntary amount of traveling under imposed conditions on any sort of ground whatever, a shoe of some kind becomes a necessity.

When shoes of one kind or another began to be worn by horses has always been disputed by learned gentlemen. Nor perhaps is it of much consequence whether the horses of Pharaoh were shod or how they were shod when they perished in the Red sea or whether Homer, Virgil, Horace and other "ancient classics," when they are poets, are to be taken literally rather than figuratively in the epithets which they apply to horses. These would no doubt be considered by a farrier to indicate that reference is made to a hoof garnished with some sort of metal.

As for the ingenuous observers who draw inferences from works of sculpture, they might as well argue that the heroes and heroines of antiquity habitually went about winter and summer "mid nodings on."

Xenophon no doubt as a writer of plain prose and of works relating to horsy matters would deserve the most serious and respectful attention, but memory fails to recall any remarks of his about what we should regard as properly called shoeing.

Certain protections for the horse's hoof may be mentioned in the works of Columella and Vegetius, and in the time of Constantine the Great there is said to have been known a footgear for horses which was fastened to the pastern. However, the earliest known specimen of an iron horseshoe fastened with nails is said to have been that which was discovered in the tomb of the frank King Childeric, who died in 481 and whose tomb was opened in 1653.

DEATH OF MR. ENGLISH.

Passed Away at His Home at Tacoma at 3 o'clock Friday Afternoon.

Information was received Friday night of the death of D. T. English, which occurred at his home in Tacoma at 3 o'clock Friday afternoon, after a brief illness.

Deceased was well known and popular in this section. He was about fifty-five years of age, and was a member of Stonewall Camp, U. C. V. For many years he has resided in this county, and was one of the leading and most influential citizens. He owned valuable property, among which was a fine orange grove.

The news of Mr. English's death will be received with a great deal of surprise and regret. It was rather sudden, as he was in Gainesville a few days ago, and appeared to be in excellent health.

OYSTER SEASON ON.

Delicious Cedar Key Bivalves Are Now Being Shipped to Gainesville

The fish and oyster men are happy, because of the fact that they are now receiving oysters from Cedar Key, which are recognized to be as fine as were ever taken, regardless of the locality. Cedar Key oysters have a reputation everywhere, and Gainesville is no exception.

While oysters from the North have been received in sealed cans, and have been on the market for the past ten days or two weeks, the average individual invariably calls for the Cedar Key, and if it is not a Cedar Key he does not relish it as well.

Many families enjoyed a genuine Cedar Key oyster spread Thursday and Friday, and all were delighted with the advent of this famous and delicious bivalve into the market again.

Street Sprinkler at Work.

Owing to the excessive high winds Friday, the Street Committee put the street sprinkler into action, which relieved conditions a great deal in the afternoon. The Street Committee are a clever set, and the street sprinkler is a good thing when it is needed.

S. W. Littlefield, for several years connected with the cotton department of H. F. Dutton & Co., of this city but now of Blackshear, Ga., was in Gainesville yesterday, having come to investigate the cotton situation in this district. Mr. Littlefield is a shrewd buyer and has little to say, hence it is a difficult matter to get anything out of him as regards the cotton situation.

Surveyor J. W. Patton has returned from Alachua, where he has been on professional business. He reports that town on a boom, and declares it is one of the best he ever saw of its size. The merchants, business men and citizens pull together for anything of interest, to Alachua, with the result that everybody is happy and prosperous.

J. J. Beck and son, Charley, were in the city from Campville yesterday.
